Letter: 03/2023 ED (Corporate Collaborations), Dated: 30th May, 2023

Subject- Suggestion for Expansion of Internship Policy and extending its benefits to the Rural and remote areas for improvisation of Employability standards in the State _regarding

Dear Sir/ Madam,

Greetings!

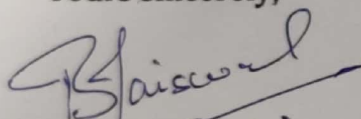

At the outset, I extend my Congratulations to the Department of Planning who initiated a valuable policy measure of **"Internship Program"** for young students. The policy measure is extremely beneficial for the students of the State and has been enriching their skills & know-how. The same is leading to overall improvement in the qualitative employability standards of the students, herein.

In the relative perspective of the above, it is suggested and requested that the scheme is extended in the entire sphere of Uttarakhand, to enable the students from far-off remote places also to enrich their knowledge based skills. Today ,

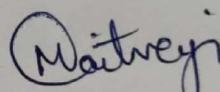

the policy benefits are reaching the periphery of Departmental Head Quarters , chiefly at Dehradun . The horizons now need to be extended. The set of meaningful relevant instructions for providing Internship facilitation to College students -(paid/ unpaid during vacations) in the Zonal, District and Block headquarters offices shall help in extending the benefits of the scheme to the relatively disadvantaged groups of remote Hills. Further, it is requested that the horizons of Internship is also expanded in the Private Sector where-in the Apprenticeship act/CSR may be activated for the private players with adequate sensitization for the objectives as discussed above. It shall strengthen the cause and the youth from remote places will get relevant exposure for employability and entrepreneurship; which also happens to be the major mandate of the New Education Policy,2020.

We look forward for the kind consideration of the request and futuristic collaborative efforts for the development of the State,

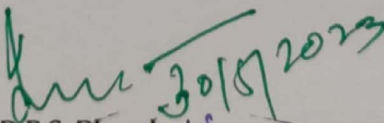

Thanking You,
Yours sincerely,
